### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: Applicant's arguments filed on 7/23/07 are persuasive as to the point that cited prior arts fail to teach a process including the step of compensating for an impedance mismatch between the impedance of the power supply and the impedance of the plasma by adjusting at least one of the processing parameters of the processing apparatus to stabilize the plasma during the transition period in an alternate etch/deposition process as the context of claim 1 and 33.

2. The prior art also does not teach a process for stabilizing plasma including the step of providing a chamber in which a portion is separated from a main part of the chamber by a deflectable member and also does not teach that the volume of the separated portion is larger than the main part as the context of claims 31 and 32.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Shamim Ahmed whose telephone number is (571) 272-1457. The examiner can normally be reached on M-Thu (7:00-5:30) Every Friday Off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nadine G. Norton can be reached on (571) 272-1465. The fax phone
